

ZEN TILES

Murcia Lakeland Stone

Range Description

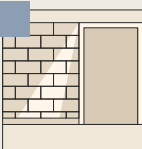

Grounded clarity. Lakeland Stone reflects gentle earth tones that feel both timeless and tender-soft greys washed with warm beige undertones. Its matt, textured surface carries the whisper of natural stone into calm spaces. Let Lakeland Stone anchor patios, kitchen floors, or warm entryways with understated grace. Pair it with pale woods, flax linens, or brushed metal details. Its subtle complexity holds a space in gentle balance-never loud, always felt.
