

ZEN TILES

Sierra Frosted Marble

Range Description

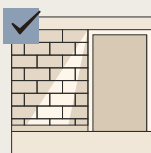

Quiet strength. Understated elegance. Sierra Frosted Marble reveals the depth and complexity of natural stone with its soft grey base and intricate veining. The polished surface lends a subtle sheen that catches light delicately, creating an atmosphere of calm sophistication. Sierra Frosted Marble pairs well with cool woods, matt metals, and textured fabrics like wool or linen. It suits refined living spaces or serene bathrooms where subtle contrast is desired without disruption. Use it to anchor a monochrome palette or soften industrial interiors with warmth and grace. Embrace simplicity in furnishings to allow the tile's natural character to resonate.
