## DIRECT WOOD FLOORING

### Loft Vintage Oak

Loft Vintage Oak features rich coffee tones, creating a deep, luxurious feel. The intense brown hues, with subtle undertones of warmth, give the wood a refined, bold appearance. Brushed and lacquered engineered wood flooring offers durability, easy maintenance, and a stylish appearance. The brushed texture adds a natural, authentic look while hiding scratches, and the lacquer finish provides a protective layer against stains, moisture, and wear. This combination makes the flooring more durable than other finishes, resistant to scratches, and easy to clean. Rustic grade engineered wood flooring features natural variations in grain, knots, and color, giving it a warm, earthy look with plenty of character. Ideal for those seeking an authentic, organic feel, it adds charm and depth to rustic, farmhouse, or traditional interiors. The unique imperfections enhance the wood's natural beauty and individuality.
